Mobile Device Management

Mobile devices are revolutionising the way schools access technology every day. However, schools need to be able to manage access levels so that students only view appropriate content.

Mobile Device Management (MDM) is a tool designed just for schools and makes it quick and easy to manage Apple i-devices throughout your school.

Tight integration with iOS makes controlling the device through MDM as easy as configuring the device itself. Device management can be split between IT staff and classroom teachers so everyone has the visibility and control they need.

Additionally MDM integrates with the Schools Broadband filtering solution so that mobile devices experience the same level of filtering whether in school, on the bus or at home.

With Mobile Device Management you can:
- Add new mobile devices in minutes
- Manage policies and settings from either the web interface or the iPhone management app
- Make mobile device management easy, keep mobile device use safe and ensure mobile learning programs are effective
- Give teachers the ability to roll out apps to pupils and monitor Internet use
- Record mobile devices and their installed software
- Manage updates and installs from a central location
- Quickly identify devices that have broken the school's Internet Acceptable Use policy

Features:
- Easy to use management interface
- Hierarchical administration model – School, Year Group, Subject Group, User and Device
- Ability to force authentication
- Integration with Lightspeed Proxy to enforce off site Internet filtering of devices
- Impose restrictions on device and app use
- Remote configuration and device wiping
- Push apps out from a central location
- Passcode removal and remote locking
About Us

EIS is the leading supplier of tailored IT infrastructure, hardware and software services to schools.

Establish in 1982, we specialise in incredibly advanced complex systems. It is however our vast knowledge, experience and approachable nature which enables us to make things seem very simple.

Our customers realise that the systems are complex, but our primary concern is that technology is simple to use and above all that, just works!

Our many years of experience and knowledge in providing outstanding IT support services and a comprehensive training and events programme means that teachers are enabled to concentrate on teaching.

Training & Events

We provide a wide range of training courses and events throughout the year, all of which are available to book via Kent CPD Online. For any additional information, please email training@eis.kent.gov.uk

Service Desk

Our highly skilled Service Desk team are available from 08:00 to 17:00 Monday to Friday throughout the year, with the exception of bank holidays. We aim to resolve most queries on the same day and if we cannot resolve your query immediately, it will be referred to our specialist teams.

Prices & Packages

We offer a wide range of options tailored to suit the size and needs of your schools. All IT products and support services are provided with an annual Support Agreement. Some products and services are also subject to a licence fee. Please contact us for a quotation.

Free Demonstrations

To arrange a free demonstration or to discuss how any of our services could be of benefit to your school please contact us.
